

# ***Are you concerned about:***

**The health of the Carmel River ecosystem?**

**What can be done about the silt-filled San Clemente Dam  
on the Carmel River?**

**The state of the Carmel River lagoon and beach?**

---

Then...Please join us

**March 26, 2008**

for a public information session on

## **The San Clemente Dam Removal Project**

The State Coastal Conservancy, National Marine Fisheries Service, and California American Water have been working together on an approach to remove the San Clemente Dam. The goal of this exciting public-private initiative is to provide a permanent solution to the dam's public safety problem while restoring the Carmel River watershed for the benefit of the community as well as the region's wildlife.

The scheduled meetings are intended to provide the public with an opportunity to learn about the progress of this project. Each meeting will begin with an informational presentation on project specifics, and the remainder of the time will be dedicated to hearing comments and answering questions from the public.

**1:30pm – 3:00 p.m.**

***Hidden Valley Institute of  
Performing Arts***

**Carmel Valley & Ford Road  
Carmel Valley**

**7:00 p.m. – 8:30 p.m.**

***Mission Ranch Hotel***

**26270 Dolores Street  
Carmel**

**Sponsored by:**

**Carmel River Watershed Conservancy  
Carmel Point and Lagoon Preservation Association  
Planning and Conservation League Foundation**
