

Dr. Mike Laufer is the Co-Founder & CEO of Kairos Power. In this role, Dr. Laufer is responsible for all business and technical operations within the company as well as government affairs for Kairos Power's design, development, and commercialization of the Kairos Power Fluoride Salt-Cooled High-Temperature Reactor (KP-FHR).

Prior to co-founding Kairos Power, Dr. Laufer was a postdoctoral scholar at the University of California, Berkeley where his research included work in reactor safety, design, licensing, and code validation for advanced non-light water reactors. His technical expertise includes experimental and discrete-element simulation methods for granular flows relevant to pebble-bed nuclear reactors.

Dr. Laufer graduated from Stanford University with a B.S. in Mechanical Engineering with Honors in International Security Studies. He received his Ph.D. in Nuclear Engineering from the University of California, Berkeley.
